Zelena polja Longđija – 绿野 – Green Fields of Longdji

Kao što često odlutamo u pejzaž nečijeg lica, tražeći njegov karakter i osobnost, tako, s istom namjerom, odlutamo i u portret nekog pejzaža. U oku fotografa reflektuje se pejzaž u koji je zagledan, a u dubini pejzaža reflektuju se osjećanja fotografa, koji se ne vidi, ali se podrazumijeva.

Autor

我们经常面对人物肖像，审视其性格特征。同样地，我们经常沉浸在风景画中，感受其美之所在。风景呈现在摄影师的眼里，而摄影师的情感，虽然看不见，其深度却隐含在他捕捉的镜头里。

作者

The way we, frequently, become immersed into the portrait of someone's face, examining its character and particularity, we become immersed into a portrait of a landscape with the same intention. The landscape is reflected in the eyes of the photographer; and the feelings of the photographer, who remains invisible but implicitly present, are reflected in the depth of the landscape captured.

Author

Autor je na fotografijama uspio da dočara onaj jedinstveni samozaboravni, stapajući trenutak doživljen u susretu sa prirodom, njenom veličanstvenom nepreglednošću, sažimajući univerzum u poetizovanu pojavnost. Pažljivo kadriranje kompozicija, često iz gornjih rakursa kako bi se naglasilo prostranstvo krajolika i njegova bliskost asocijativnom, skoro apstraktном, kao i izrazito senzitivan osjećaj zaraskošnu i suptilnu paletu boja, čine da užvišena ljepota ulazi u dušu onoga koji gleda fotografije. Zahvaljujući umijeću i imaginativnoj sposobnosti Popovića da prevede lično viđenje na specifičnu terminologiju fotografije kao umjetničke discipline, konačno i beskrajno, jednostavno i kompleksno, trenutno i vanvremensko su tako harmonizovani da stvaraju iskru poezije.

Ljiljana Karadžić, istoričarka umjetnosti

在其摄影作品中，作者设法捕捉到与大自然亲密接触时那种与众不同、沉醉其中而又无法自拔的瞬间。自然迷人的广阔浩瀚，将宇宙谱写成为一首诗歌。为了强调景观的浩瀚与色彩的紧密联系，而这些色彩本身具有想象性、抽象性以及丰富性，该作者通常采用俯瞰的视角来刻画细节。正是通过这种方式，雄伟壮观的美景得以震慑每一位观者的灵魂。通过萨飒·普波维奇先生高超的摄影技术以及丰富的想象，他总能将个人视角转化为专业摄影的艺术视角。无论是有限的还是无限的，简单的亦或复杂的，瞬间的或者永恒的，他都能恰如其分地将其融合为一体，碰撞出诗歌般的火花。

On his photographs, the author managed to catch a unique, self-forgettable, merging moment experienced in the encounter with nature, its fascinating vastness, summarizing the universe into the poeticised manifestation. A careful approach to compositions, frequently from the upper viewpoint, in order to emphasise the vastness of the landscape and its closeness with the associative, almost the abstract, as well as extreme sense of rich and delicate range of colours, make the sublime beauty enter the soul of an observer of photographs. Owing to the skill and imaginative ability of Mr. Popović to transpose a personal vision to a specific terminology of photography as an artistic discipline, the definite and the indefinite, the simple and the complex, the current and the eternal, are harmonized in such a way that they create a spark of poetry.
